The County and the Contractor, for the consideration hereinafter specified, agree as follows:

1. CONTRACT DOCUMENTS

The contract documents consist of this Agreement, Exhibit A (Scope of Services), Exhibit B (Pricing) and Exhibit C (Nondisclosure and Data Security Agreement) (Contract Documents”).

Where the terms and provisions of this Agreement vary from the terms and provisions of the other Contract Documents, the terms and provisions of this Agreement shall prevail over the other Contract Documents and the remaining Contract Documents shall be complementary to each other and if there are any conflicts the most stringent terms or provisions shall prevail.

The Contract Documents set forth the entire agreement between the County and the Contractor. The County and the Contractor agree that no representative or agent of either of them has made any representation or promise with respect to the parties agreement which is not contained in the Contract Documents. The Contract Documents may be referred to herein below as the "Contract" or the "Agreement."

2. SCOPE OF WORK

The Contractor agrees to perform the services described in the Contract Documents (alternatively “Work”). The primary purpose of the Work is to furnish all labor, materials, and equipment for the maintenance and installation of new equipment, upgrades and moving of existing equipment of First-In Fire Station Alerting System in order to maintain and keep in optimal working order the alert system known as First-In Fire Station Alerting System, and all other work shown as described and required in the Contract Documents (alternatively, the "Work"). The Contract Documents set forth the minimum work estimated by the County and the Contractor to be necessary to complete the Work. It shall be the Contractor’s responsibility, at the Contractor’s sole cost, to provide the specific services set forth in the Contract Documents and sufficient services to fulfill the purposes of the Work. Nothing in the Contract Documents shall be construed to limit the Contractor’s responsibility to manage the details and execution of the Work.

3. CONTRACT TERM

The Work shall commence on the date of the execution of this Agreement by the County and be completed no later than August 1, 2022 ("Contract Term"), subject to any modifications as provided for in the Contract Documents.
4. **CONTRACT AMOUNT**
The County will pay the Contractor in accordance with the terms of the Payment paragraph below, and Exhibit B for the Contractor's completion of the Work described and required in the Contract Documents. The Contractor agrees that it shall complete the Work for the total amount specified in Exhibit B unless such amount is modified as provided in this Agreement.

5. **CONTRACT PRICE ADJUSTMENTS NEGOTIATED**
The Contract Amount/unit prices shall remain firm for the first five (5) years. The Contract Amount/unit prices negotiated for years six (6) through 10. The Contractor shall submit to the County Purchasing Agent no later than February 1, 2017 the proposed rates for years six (6) through 10. The rates may be negotiated by the County.

If the Contractor and the County do not agree on a contract amount using the procedure set forth above by the thirtieth (30th) calendar day prior to the final day of agreed upon pricing, the County may in its sole discretion terminate the Contract. The contract amount/unit prices that changed as a result of this procedure shall become effective on August 1, 2017 of the Contract and shall be binding on the parties for the duration of the agreement.

6. **PAYMENT**
Payment will be made by the County to the Contractor within thirty (30) days after receipt by the County Project Officer of an invoice. Amounts on invoices shall not include amounts allocated to tasks (as shown in Exhibit A) on which no work has been done. The Project Officer will either approve the invoice or require corrections. The number of the County Purchase Order pursuant to which authority goods or services have been performed or delivered shall appear on all invoices.

7. **PROJECT OFFICER**
The performance of the Contractor is subject to the review and approval of the County Project Officer (“Project Officer”) who shall be appointed by the Chief of the Arlington County Fire Department or agency requesting the work under this Contract. However, it shall be the responsibility of the Contractor to manage the details of the execution and performance of its work pursuant to the Contract Documents.

8. **ADJUSTMENTS FOR CHANGE IN SCOPE**
The County may order changes in the Work within the general scope of the Work consisting of additions, deletions or other revisions. No claim may be made by the Contractor that the scope of the work or that the Contractor's services have been changed requiring adjustments to the amount of compensation due the Contractor unless such adjustments have been made by a written amendment to the Contract signed by the County and the Contractor. If the Contractor believes that any particular work is not within the scope of the Work or is a material change or otherwise will call for more compensation to the Contractor, the Contractor must immediately notify the Project Officer after the change or event occurs and within ten (10) calendar days thereafter must provide written notice to the Project Officer. The Contractor's notice must provide to the Project Officer the amount of additional compensation claimed, together with the basis therefor and documentation supporting the claimed amount. The Contractor will not be compensated for performing any work unless a proposal complying with this paragraph has been submitted in the time specified above and a written
Contract amendment has been signed by the County and the Contractor and a County purchase order is issued covering the cost of the services to be provided pursuant to the amendment.

9. **ADDITIONAL SERVICES**
The Contractor shall not be compensated for any goods or services provided except those included in Exhibit A and included in the Contract Amount unless those goods or services are covered by a written amendment to this Contract signed by the County and the Contractor, and a County Purchase Order is issued covering the expected cost of such services.

Additional services agreed upon by the parties will be billed at the rates set forth in Exhibit A unless otherwise agreed by the parties in writing.

10. **REIMBURSABLE EXPENSES**
No reimbursable expenses are allowed under this Contract. The Contract Amount includes all costs and expenses of providing to the County the services described in this Contract.

11. **PAYMENT OF SUBCONTRACTORS**
The Contractor is obligated to take one of the two following actions within seven (7) days after receipt of amounts paid to the Contractor by the County for work performed by any subcontractor under this Contract:

a. Pay the subcontractor for the proportionate share of the total payment received from the County attributable to the work performed by the subcontractor under this Contract; or

b. Notify the County and the subcontractor, in writing, of the Contractor's intention to withhold all or a part of the subcontractor's payment with the reason for nonpayment.

The Contractor is obligated to pay interest to the subcontractor on all amounts owed by the Contractor to the subcontractor that remain unpaid after seven (7) days following receipt by the Contractor of payment from the County for work performed by the subcontractor under this Contract, except for amounts withheld as allowed in subsection b., above. Unless otherwise provided under the terms of this Contract, interest shall accrue at the rate of one percent (1%) per month.

The Contractor shall include in each of its subcontracts, if any are permitted, a provision requiring each subcontractor to include or otherwise be subject to the same payment and interest requirements with respect to each lower-tier subcontractor.

The Contractor's obligation to pay an interest charge to a subcontractor pursuant to the above provisions may not be construed to be an obligation of the County. A Contract modification may not be made for the purpose of providing reimbursement for such interest charge. A cost reimbursement claim may not include any amount for reimbursement for such interest charge.

12. **NON-APPROPRIATION**
All funds for payments by the County under this Contract are subject to the availability of an annual appropriation for this purpose by the County Board of Arlington County, Virginia. are as advanced or more advanced in their technology, the County will terminate the Contract, without termination charge or other liability to the County, on the last day of the then current fiscal year or when the appropriation made for the then current year for the services covered by this Contract is spent, whichever event occurs first. If funds are not appropriated at any time for the continuation of this Contract, cancellation will be accepted by the Contractor on thirty (30) days prior written notice, but failure to give such notice shall be of no effect and the County shall not be obligated under this Contract beyond the date of termination specified in the County's written notice.

13. REQUIREMENTS CONTRACT (ESTIMATED QUANTITIES)
During the Contract Term, the Contractor will furnish all of the items or services described in the Contract Documents if so requested by the County. The Contractor understands and agrees that this is a requirements contract and the County will have no obligation to the Contractor if no, or fewer, items or services are required or requested by the County. Any quantities which are included in the Contract Documents are the present expectations of those who are planning for the County for the period of the Contract. The amount is only an estimate and the Contractor understands and agrees that the County is under no obligation to the Contractor to buy that amount, or any amount, as a result of having provided this estimate or of having had any normal or otherwise measurable requirement in the past. The Contractor further understands that the County may require goods and/or services in excess of the estimated annual contract amount and that such excess shall not give rise to any claim for compensation other than at the unit prices set forth in this Contract.

14. COUNTY PURCHASE ORDER REQUIREMENT
County purchases are authorized only if a County Purchase Order is issued in advance of the transaction, indicating that the ordering agency has sufficient funds available to pay for the purchase. Such a Purchase Order is to be provided to the Contractor by the ordering agency. The County will not be liable for payment for any purchases made by its employees without appropriate purchase authorization issued by the County Purchasing Agent. Contractors providing goods or services without a signed County Purchase Order do so at their own risk and expense.

If the County reasonably rejects staff or subcontractors pursuant to this section, the Contractor must provide replacement staff or subcontractors satisfactory to the County in a timely manner and at no additional cost to the County. If the County reasonably determines that the Contractor has failed to perform satisfactorily, then the County will give the Contractor written notice of such failure(s) and the opportunity to cure such failure(s) within at least fifteen (15) days before termination of the Contract takes effect ("Cure Period"). If the Contractor fails to cure within the Cure Period or as otherwise specified in the notice, the Contract may be terminated for the Contractor's failure to provide satisfactory Contract performance. Upon such termination, the Contractor may apply for compensation for Contract services satisfactorily performed by the Contractor, allocable to the Contract and accepted by the County prior to such termination unless otherwise barred by the Contract ("Termination Costs"). In order to be considered, such request for Termination Costs, with all supporting documentation, must be submitted to the County Project Officer within fifteen (15) days after the expiration of the Cure Period. The County may accept or reject, in whole or in part, the application for Termination Costs and notify the Contractor of same within a reasonable time thereafter.

The Contractor will be entitled to receive compensation for all Contract services satisfactorily performed by the Contractor and allocable to the Contract and accepted by the County prior to such termination and any other reasonable termination costs as negotiated by the parties, but no amount shall be allowed for anticipatory profits.

51. INSURANCE REQUIREMENTS
The Contractor shall provide to the County Purchasing Agent a Certificate of Insurance indicating that the Contractor has in force the coverage below prior to the start of any Work under this Contract and upon any contract extension. The Contractor agrees to maintain such insurance until the completion of this Contract or as otherwise stated in the Contract Documents. All required insurance coverages must be acquired from insurers authorized to do business in the Commonwealth of Virginia, rating of “A-” or better and a financial size of “Class VII” or better in the latest edition of A.M. Best Co., and acceptable to the County. The minimum insurance coverage shall be:

a. Workers Compensation - Virginia Statutory Workers Compensation (W/C) coverage including Virginia benefits and employers liability with limits of $100,000/100,000/500,000. The County will not accept W/C coverage issued by the Injured Worker's Insurance Fund, Towson, MD.

b. Commercial General Liability - $1,000,000 combined single limit coverage with $2,000,000 general aggregate covering all premises and operations and including Personal Injury, Completed Operations, Contractual Liability, Independent Contractors, and Products Liability. The general aggregate limit shall apply to this Contract. Evidence of Contractual Liability coverage shall be typed on the certificate.

c. Business Automobile Liability - $1,000,000 Combined Single Limit (Owned, non-owned and hired).

d. Additional Insured - Arlington County, and its officers, elected and appointed officials, employees, and agents shall be named as an additional insured on all policies except Workers Compensation and Auto and Professional Liability; and evidence of the Additional Insured endorsement shall be typed on the certificate.

e. If there is a material change or reduction in coverage the Contractor shall notify the Purchasing Agent immediately upon Contractor's notification from the insurer. Any policy on which the Contractor has received notification from an insurer that the policy has or will be cancelled or materially changed or reduced must be replaced with another policy consistent with the
terms of this Contract, and the County notified of the replacement, in such a manner that there is no lapse in coverage. Not having the required insurance throughout the Contract Term is grounds for termination of the Contract.

f. Any insurance coverage that is placed as a “claims made” policy must remain valid and in force, or the Contractor must obtain an extended reporting endorsement consistent with the terms of this Contract, until the applicable statute of limitations has expired, such date as determined to begin running from the date of the Contractor’s receipt of final payment.

g. Contract Identification – The insurance certificate shall state this Contract's number and title.

The Contractor must disclose the amount of any deductible or self insurance component applicable to the General Liability, Automobile Liability, Professional Liability, Intellectual Property or any other policies required herein, if any. The County reserves the right to request additional information to determine if the Contractor has the financial capacity to meet its obligations under a deductible. Thereafter, at its option, the County may require a lower deductible, funds equal to the deductible be placed in escrow, a certificate of self-insurance, collateral, or other mechanism in the amount of the deductible to ensure protection for the County.

The Contractor shall require all subcontractors to maintain during the term of this Contract, Commercial General Liability insurance, Business Automobile Liability insurance, and Workers' Compensation insurance in the same form and manner as specified for the Contractor. The Contractor shall furnish subcontractors' certificates of insurance to the County immediately upon request by the County.

No acceptance or approval of any insurance by the County shall be construed as relieving or excusing the Contractor from any liability or obligation imposed upon the Contractor by the provisions of the Contract Documents.

The Contractor shall be responsible for the work performed under the Contract Documents and every part thereof, and for all materials, tools, equipment, appliances, and property of any description used in connection with the work. The Contractor assumes all risks for direct and indirect damage or injury to the property or persons used or employed on or in connection with the Work contracted for, and of all damage or injury to any person or property wherever located, resulting from any negligent or willful action, omission, commission or operation under the Contract, or proximately caused by or connected with the contracted work.

The Contractor shall be as fully responsible to the County for the acts and omissions of its subcontractors and of persons employed by them as it is for acts and omissions of persons directly employed by it.

Notwithstanding any of the above, the Contractor may satisfy its obligations under this section by means of self insurance for all or any part of the insurance required, provided that the Contractor can demonstrate financial capacity and the alternative coverages are submitted to and acceptable to the County. The Contractor must also provide its most recent actuarial report and provide a copy of its self insurance resolution to determine the adequacy of the insurance funding.

SCOPE OF SERVICES

INTRODUCTION

The First-In fire station alerting system ("System") by Westnet is a multi-mode, IP based, networked communications system linking the Computer Aided Dispatch (CAD) system used in 911 public safety answering point with the fire stations they dispatch. First-In takes information from the CAD system as it recommends units to respond to emergencies and near instantaneously provides auditory and visual indication to personnel in fire stations on the alarm, location and units to respond to the emergency. First-In meets National Fire Protection Association (NFPA) standard 1221 requiring constant electrical circuit supervision between the 911 center and fire stations connected to it by constant polling between the Master Control Unit (MCU) in the station with the server connected to CAD. MCUs in stations have multiple, redundant connection to the CAD system (IP, radio, RF, and telephone lines) to assure constant connectivity. There are multiple means at the 911 center to activate fire stations, should there be a CAD disruption. First-In equipment in the fire station also provides the following functions within the building: public address; doorkell/visitor alert; and night-lighting along with the dispatch functions. When there are multiple response units assigned to a fire station, equipment in dormitories are configurable by firefighters to that only alarms for their unit wake them to the alarm.

Arlington County purchased the System from Westnet and Westnet installed the necessary CAD and MCUs through the County’s ten (1) fire stations and within its 911 public safety answering point, the Emergency Call Center (ECC). This Agreement is a technical support and maintenance agreement for the System, which the County already possesses.

SCOPE OF SERVICES

The Contractor shall provide 24/7 toll-free technical support and on-site maintenance for all current, existing equipment ("System") under Arlington County Agreement No. 425-04 as of November 1, 2011. If the System at the ECC is out of service, the Contractor agrees to provide a response time for a technician to provide remote technical support in three to six (3 to 6) hours from the time County requests service or notifies the Contractor of problems with the System. If remote technical support is not successful and the ECC remains out of service, Contractor agrees to arrive on site within twenty-four (24) hours of this determination. If the System at a Fire Station is out of service, the Contractor agrees to provide a response time for a technician to arrive on site not later than the next business day from the time that the Contractor is notified of any problem with the System.

The Contractor shall upgrade and maintain as necessary, at no additional cost to the County, the System software covered under
this Agreement which has already been installed by the Contractor.

The Contractor will provide all maintenance, whether on-site or remotely, in order to maintain the System and equipment in top operational order according to the requirements of the manufacturer. Such maintenance will be on a schedule which is determined by the Contractor in order to ensure optimal functionality of the System. Coordination of any on-site maintenance will be arranged with the County's Project Officer as necessary.

1. The Contractor shall:

   a. Provide Contractor-owned spare equipment with Customer's programming.

      1) Any Contractor-owned spare equipment parts provided under this Agreement are the property of the Contractor. Any damage to Contractor's spare equipment part is not covered under this Scope of Services and the County shall pay for the repair or replacement of the spare equipment part.

      2) The Contractor may service replaceable parts, by way of new or remanufactured replacement parts to Customer on an exchange basis. Upon receipt by the County of the replacement part, the original part becomes the property of the Contractor, and shall be returned by County to the Contractor. County shall pay the Contractor the full retail value of the replacement part if the Contractor does not receive the original part within ten (10) days after replacement part installation.

   b. The Contractor will provide all parts and labor necessary to restore the System to working order in accordance with factory specifications in effect at the time the equipment was purchased. The Contractor will repair or replace any malfunctioning component of the System provided that the malfunction was not caused by an event excluded under this SOW. If the Contractor elects to upgrade the equipment rather than repair it, the Contractor is under no obligation to upgrade other equipment covered under this Agreement. The Contractor will pay for shipping back to the County.

   c. The Contractor may subcontract the services provided under this Agreement.

   d. The County will not make modifications to the System without obtaining approval from the Contractor in writing.

   e. Should the Contractor encounter any difficulties with the County Responsibilities listed below, it will immediately contact the County's Project Officer.

   f. Upon request, Contractor will provide a written quote for additional work not specifically identified in this contract. This work could include but is not limited to addition and installation of new equipment, relocation of existing equipment, upgrades and enhancements and other system related goods and services. If the County decides to proceed with the work a new purchase order will be issued exclusively for the work to be ordered.

2. The County will:

   a. SERVICE CALLS: The County will notify the Contractor of any problems with the System by calling the Westnet Systems Group at 1-800-843-9695 (Contractor's call center).
b. Provide and maintain an operating 24/7 VPN for the duration of the Agreement. The VPN shall allow the Contractor to connect to all fire stations that are equipped with the First-In Fire Station Alerting equipment. The VPN must be operating and tested by the Contractor before the maintenance commences.

c. Ensure that the Westnet monitor computer in the ECC has 24/7 access to the VPN and to all Customer fire stations. The County will return the Westnet Monitor Computer to the Contractor at the conclusion of any final contract term.

d. Provide the make and model number of the fire station radio that First-In will be connected to for the source of dispatch audio. If there are any connections to this radio other than the outside antenna and the power source, the County will provide a diagram showing the method of connection, connector pins used, signals obtained from the radio and signals sent to the radio by the fire station equipment.

e. Provide the name, 24-hour telephone number and position of responsible party that can be contacted about each station's radio communication, public address, CAD and network equipment.

f. Provide the Contractor with code-access to the stations.

g. Provide the make and model number of fire station amplifier, type of connectors used by fire alerting input, input impedance and the necessary audio level to drive station amplifier.

h. Provide a description of station control circuits (i.e. lighting, door openers, gas shut-off) and the number of circuits to be controlled by the Control Remote.

i. Ensure that the Master Control Unit (MCU) at each station is at all times plugged into a properly operating on-line fulltime UPS.

j. Ensure that the Master Control Unit (MCU) at each station is at all times plugged into the First-In Radio Isolation Unit. The Contractor will exclude from this Agreement the repair of any equipment not properly connected to the Radio Isolation Unit.

k. Ensure that the radio antenna and lightning arrester is installed, is installed per current engineering standards and that all lightning protection equipment is connected to a 5-ohm earth ground by a #6 or larger cable not exceeding eight (8) feet in length between the 5-ohm earth ground and the protected equipment.

l. Notify the Contractor of any change in any equipment connected to the fire station System.
SERVICE EXCLUSIONS AND CONDITIONS:

1. This Agreement may exclude:

   a. Service made necessary by accident, misuse, abuse, neglect, water damage or maintenance conducted by unauthorized person/s at the direction of the County;

   b. Installation, repair or replacement of other systems of which the Product may be a part, but which is specifically not a Westnet product or a product installed by Westnet as part of the System;

   c. Service of Product on which the Westnet or First-In label or logo, rating label or serial number have been defaced or removed; and

   d. Contractor agrees to respond to a reported problem in the time frames outlined in this Agreement, however, if the problem is actually associated with systems connected to the System (i.e. radio, network, CAD, public address) and not the System, Contractor may charge the County for labor costs after three (3) technical support calls or two (2) on-site calls, but only after notifying the County after each response that the call is not properly within the scope of this Agreement. The rates for such calls are located in Exhibit D to this Agreement. This provision does not eliminate the requirement for a written amendment for any additional work outside the scope of work in this Agreement.
